FEATURES

Easy-to-use & easy-to-convenient facilities for users

It provides a multipurpose drawer with a lock system, private PC rack for a burglar-proof, keyboard tray with a wrist protector, monitor angle viewer adjustment & protection device, and one-touch power control switch.

System Console : JPM-Console S or JPM-Console Z or JPM-Console T x 1

International Standardized 19" rack storage with a burglar-proof alarm

It centrally stores all its multimedia components and accessories in a Rack Type storage device which secures them unless its door is completely open.

Best Pen S/W for e-Learning solution

It provides various Pen Tool functions for users such as a monitor screen share with lecturers and users, setting up preferences, opening PPT files and animations.

Integrated controller

The perfect integrated controller enables users to control multimedia devices, the volume of MIC and AV input devices, and to check the current mode by LED display. It also utilizes a central management system which allows broadcast via LAN, intranet, or internet.
